Shooters Earplugs

Custom earplug features a Sonic Valve with aluminum body which contains an acoustic valve that will close upon impact of loud noise. Designed for hunting, the custom earpiece allows the user to hear clearly until a weapon is fired in which the valve closes and gives the user hearing protection for gunfire or other loud noise.

Made from Emplex II material gives you many color choices and have the durability of a silicone material. Sonic earplugs come with a plastic carrying case.

Shooter's Hearing Protectors

Premium Shooting Earplugs
Innovative Technology

Aluminum barrel protects diaphragm for extended use. ①
